

My wonderful husband, David, is now serving at Gateway as a male counselor. He also loves the Gateway ministry and as he describes it, "we are in the front lines". And again God is so very faithful, as we are on the battlefield. He gives us spiritual armor to put on.

It is a special joy serving the Lord together as a couple at Gateway. We look forward to continuing our service for the Lord as we plan to prepare for full time missions in September 2003 at Word of Life Bible Institute. Our prayer is that as we follow God's calling others will step forward to serve the Lord at Gateway, especially in the sonogram ministry. It is truly a precious privilege to view "God's work in progress"!

"For the eyes of the Lord
range throughout the earth
to strengthen those whose hearts
are fully committed to him...
2 Chronicles 16:9

*Gateway is not a medical facility;
therefore, all our sonograms are
limited to pregnancy verification only.
No state license is required of us.
Because we wish to be beyond re-
proach, we require our sonogram
candidates to be either a trained
sonographer, an RN or an LPN.*

*If you are a sonographer, an RN or
LPN and would like to consider vol-
unteering 3 hours per week at our
Elizabeth office, we will train you,
at no cost, so that you may use our
state of the art ultrasound unit.*

*Would you like
to join us?*

Introducing the sonogram ministry of

Gateway Pregnancy Centers

“GREAT IS THY FAITHFULNESS”

A Testimony by Fran Drenth

Indeed, the Lord is so very faithful despite our unfaithfulness. In November 2000, the Lord put it upon my heart to get involved with Gateway. Because of various situations, that didn't happen, yet the Lord remains faithful!

In September 2001 I was told of the need Gateway had for a nurse for the ultrasound ministry. This time I acted immediately in response to the Lord's prompting. In October 2001, I took the week-long sonogram training course, which left me in tears, feeling totally overwhelmed, incompetent, and the possibility that I would be

able visualize a 6-8 week old unborn child seemed like it would truly be "mission impossible". Yet the Lord does faithfully provide for our needs, particularly when we are serving Him. Immediately after the training week, Dean and Joan both assured me that I would have as much follow-up training with a sonographer as I needed. And graciously the Lord provided a sonographer to train with each Saturday morning from December through April. And now, I have "graduated",

functioning independently and feeling so very comfortable. This truly has been the Lord's faithfulness in providing the means to do His work. And Gateway is His work. It's a ministry, which is striving to be 100% committed to the Lord...uncompromising, teaching abstinence to the unmarried. Sharing Christ with each client is the top priority.

Recently we had an abortion minded client who was unable to provide any information to estimate her delivery date. While doing the ultrasound it was obvious that her pregnancy was into at least the second trimester. As our client viewed the images of her fully formed unborn child she was clearly disturbed. I wanted so much to determine the age of this baby. The femur length is one such measurement. The Lord enabled

me to visualize the baby so clearly. Not only did the femur appear on the screen but also the thigh, knee, lower leg and the foot were all clearly visible. I was able to obtain the femur length and effortlessly and confidently inform our client that the gestational age of her baby was 4 ½ months. Our client left still undecided. but she had many clear pictures of her baby in her mind.
